Where:

- Non-bypassable charges must be all TDU charges and credits for the appropriate customer class in the applicable service territory and other charges including ERCOT administrative charges, nodal fees or surcharges, reliability unit commitment (RUC) capacity short charges attributable to LSP load, and applicable taxes from various taxing or regulatory authorities, multiplied by the level of kWh and kW used, where appropriate.
- LSP customer charge must be \$0.09 per kWh.
- LSP energy charge shall be the average actual Real-Time Settlement Point Prices (RTSPPs) for the applicable load zone for the preceding calendar month multiplied by 120%, capped at 160% of the previous month's LSP energy charge.
- The LSP energy charge is 8.4¢/kWh.
