RE: Docket No. 38985 – Annual Filing by Electric Utilities of Interconnected Distributed Generation Facilities to Comply with Substantive Rule §25.211(n)

Substantive Rule §25.211(n) requires that by March 30 of each year, every electric utility shall file with the Commission a Distributed Generation Interconnection Report for the preceding calendar year that identifies each distributed generation facility interconnected with the utility's distribution system. The report shall list the new distributed generation facilities interconnected with the system since the previous year's report, any distributed generation facilities no longer interconnected with the utility's system since the previous report, the capacity of each facility, and the feeder or other point on the company's utility system where the facility is connected.

Centerpoint Energy Houston Electric ("Centerpoint"), Oncor Electric Delivery ("Oncor"), American Electric Power ("AEP"), Texas New Mexico Power Company ("TNMP"), Entergy Gulf States ("Entergy"), Southwestern Public Service Company ("SPS"), Sharyland Utilities ("Sharyland"), and El Paso Electric Company ("EPE") reported a net total of 601,712 kilowatts of distributed generation ("DG") activities. During 2010 63,205 kilowatts were added to the 2009 total of 584,675 kilowatts capacity, and 19,656 kilowatts of DG were disconnected. Sharyland purchased Cap Rock Energy Corporation ("Cap-Rock") in July 2010 and now incorporates its distributed generation activities. The most common technology used for DG in Texas is diesel generation, with wind generation ranking second.

The Net Total DG activities in Kilowatts during calendar years 2003 through 2010 are shown in Table KM-1.

Distributed Generation ("DG") Summary Report for the calendar year 2010

Fuel technology that was utilized by DG in the calendar year 2010 is shown in Figure KM-2.

*The "Other" category includes such fuel technologies as: Biodiesel, Landfill gas, Biomass, Wood, and Lignite.

Net Total DG activities for each utility in Kilowatts during calendar years 2003, 2004, 2005, 2006, 2007, 2008, 2009, and 2010 are shown in Table KM-2.
