Jean Perez

Background on Low Income Tool Development

Analysis: Compare Oncor installations from 2017-19 to two geo-eligibility methods, LMISD & QCTs

- Developed to better identify and qualify low-income customers for services
- Analysis conducted by TEPRI for Oncor utilizing LMISD and QCT data
- Included Opportunity Zones based on stakeholder feedback

Result: Qualified

Oncor has selected the Easier Energy Efficiency Eligibility for Texas website www.e4-tx.com as it's look-up tool for the Low-Income Weatherization Program's verification source.

How to use the Look Up tool:

Visit www.e4-tx.com

Enter login:

- Username: Oncor
- Password: Oncor

Once logged in follow the below steps:

Enter:

- "Address" and Meter #
- Residence Type
- Utility Co
- SP Name
- SP email

*Please note that these are **REQUIRED** fields.

15

Results will produce a **"GREEN"** checkmark if the address Qualifies for the LIW Program.

A unique report ID will be created

A **"Print"** button is ready for accessing the required **"Certificate"**

Map validates the address and is available for looking at surrounding area

16

Result: Not Qualified

Results will produce a **"RED" X** if the address Does Not Qualifies for the LIW Program.

There is NO "Print" button to access the required "Certificate"

Map available with the address and is available for looking at surrounding area and verifying the location

- Once approved, a certificate is printed and included as part of the supporting documentation for submission.
- If premise does not validate against either the LMISD, QCT or OZ, a certificate is not printed.
- An alternative low income qualification method as outlined and approved by the state evaluator will be utilized.
- If premise does not qualify for a low income program, alternative energy efficiency offerings are offered by service provider through the Home Energy Efficiency Program.
